Date: April 13, 2021

Subject: Checklist for Food Service Plan Review

---

To operate a mobile food unit, you must get approval for the base of operation in which you operate from on a daily basis. If you plan to operate a mobile food unit which prepares and serves meals, lunches, sandwiches, drinks directly to the consumer the following will have to be submitted for review:

- 1) Base of operation permit
- 2) Completed and signed Georgia Department of Public Health Mobile Food Unit Application
- 3) Addendum (for internal use)
- 4) Verification of Residency Form - One of the owners should have the Affidavit notarized and submit a copy of the same form of id that was shown to notary
- 5) Provide water interruption plan if facility will continue to operate without water in the event of a water interruption (if applicable)
- 6) Provide at least 2 pictures of unit: one of inside and outside
- 7) Provide manufacturer specifications for each piece of equipment (showing that it is NSF rated or equivalent)
- 8) Floor plan drawn to scale to include the plumbing diagram
- 9) Menu
- 10) Cleanup procedures for vomit/fecal accidents
- 11) Employee health policy
- 12) Food service plan review and permit fee
- 13) Copy of business concept – summary of method of operation, how much prep will be done on truck, how many employees will be preparing food on truck, etc.
- 14) Permission from owner of property to operate on site (see state document)
- 15) Permission from owner to use restrooms (see state document)
- 16) Fire marshal approval

*Our office will not accept any of the above documents unless **All** documents are included*

*Please allow 10 business days for plan review comments*
